Yamaha Dante Box And Amplifiers to be placed on top of SM Console Next to the backstage monitor/paging system

Speaker cable runs along the wall tied to nails back to the booth.

Speaker Cable to Center Cluster

Audio Cable Run Starts at the Stage Right catwalk above the SM Console. Snake box lives here. Drop ends of other cables down to the SM console. Then run cable up to the FOH catwalk. Drop the cable down on the side of the catwalk away from the stage. Then there are nails in the wall that you can tie the cable to as you run it along the audience. When you get to the back corner run the cable along the floor behind the seats.
